No. SNATTA/2025-26/Asso.-1

Dated: 11/10/2025

APPEAL

To,
The Circle Secretary
SNATTA

Subject: Regarding Arrangement of Circle Conference and Handover of Circle Secretary Post as per the constitutional provisions and procedures of our Association.

Dear Circle Secretaries,

As per the norms of our Association, it is informed that the Circle Conference is to be arranged either online or offline, depending on local feasibility and convenience. All Circle members will be informed in advance about the mode, schedule, and agenda of the Conference.

Further, in accordance with SNATTA'S constitution the responsibility of Circle office bearers shall be handed over to the newly elected/selected members during the conference. All members and office bearers are requested to extend their full cooperation for the successful conduct of the Conference and a smooth transition of responsibilities to the next deserving members.

Those Circle Secretaries who have recently been promoted to JTO cadre are also requested to convene a meeting with the Junior Engineers in their circle and formally hand over the responsibilities of the Secretary position and help to complete the formation of new circle body of SNATTA. Your active participation and support are crucial for the successfully conduct of the conference and proper handover.

At this critical juncture, BSNL Junior Engineers are being completely ignored, and our genuine concerns remain unheard. It is therefore imperative that we stand united, organize ourselves, and collectively fight for justice and fair treatment.

We express our sincere gratitude to all those who have contributed immensely to our cadre as a Circle Secretary. Your leadership and dedication have strengthened our Association and inspired many. Now, as you step into your new roles, we urge you to guide and support the new team,

sharing your experience and wisdom to help them carry forward the mission with confidence and commitment.

At present, Junior Engineers (JEs) across BSNL are highly frustrated and demotivated due to the unjustified behavior of unions and management. In this situation, unity is our greatest strength. **We earnestly seek the continued support of all JTOs promoted from the JE cadre recently as your solidarity and cooperation are crucial for our common cause.**

Let us all rise together with renewed determination, ensuring that every Junior Engineer's voice is heard and respected. Together, we can and we will make a difference.

Thanking you

With fraternal greetings,

SURESH KUMAR
General Secretary
